Peking, prihajamo!

Urška Žolnir

V Atene ste potovala kot rezerva, domov ste se vrnili s kolajno. Si pred olimpijskimi igrami verjela v tak uspeh?

Po pravici povem, da takšnega razpleta nisem pričakovala. Predvsem sem želela dokazati sebi, da s trdim delom in vztrajnostjo lahko dosežem dobro uvrstitev.

S svojimi rezultati ste v evropskem in svetovnem vrhu. Od česa bo odvisno, boj za kolajne ali ne?

Boj za kolajne, če bom do tja prišla, bo odvisen kako dobro se bom borila, da bom dala vse od sebe in čisto nič drugega.

Menite, da se pravljica iz Aten lahko ponovi?

Trenutno lahko rečem samo to, da bom stremela k maksimalno dobrim bojem. Ostalo bo pa tako, kot mi je usojeno. Kar se je dogajalo v Atenah je stvar preteklosti. Sedaj bomo vsi tekmovalci ponovno na štartu in samo številke. Prvaki bodo na koncu OI!

Iztok Čop

Olimpijske igre v Pekingu bodo vaše pete igre v samostojni Sloveniji. Kako različno ste jih doživljali?

Med njimi so precejšnje razlike. Samo vzdusje je bilo pogosto odvisno od okolja, kjer so se odvijale.

Mederteran je bil zame med vsemi najprijetnejši. Sam pa sem jih različno doživeljjal tudi zaradi različne starosti oz. zrelosti ob nastopih. Pri 32. letih sem igre v Atenah gotovo videl drugače kot 12 let prej v Barceloni. Predvsem pa nobenih iger nisem doživeljjal kot zabavo, saj sem imel vedno visoke tekmovalne ambicije, zato so bile vsake posebej precej stresne.

Z izjemo Atlante 1996 ste se domov vedno vračali s kolajno. Kaj je potrebno imeti za uspeh na olimpijskih igrah?

Predvsem veliko volje do treninga in trezno glavo v ključnih trenutkih. Breme visoke uvrstitev na OI je lahko zelo težko, hkrati pa zelo velik motiv. Čeprav z vsemi uvrstitvami nisem bil popolnoma zadovoljen, se mi zdi, da sem vedno v olimpijskih nastopih prikazal maksimum tiste sezone.

Bodo to vaše zadnje olimpijske igre?

To bo pokazal čas.

Vasilij Žbogar

Spomin na kolajno v Atenah je še vedno živ. So bile priprave na Peking enake kot pred štirimi leti ali ste kaj spremenili?

Priprave na Peking(Quingdao) so se precej razlikovale od priprav na Atene. Vetrovni pogoji so povsem drugačni in s tem tudi tehnika jadranja ter fizične priprave. Medtem ko smo bili v Atenah jadralci pripravljeni za vse možne vetrovne pogoje to ne velja za Quingdao.Tukaj prevladujejo šibki vetrovi in močan morski tok kateri zahteva posebno tehniko vožnje jadrnice. Po šibkih vetrovih je izredno pomembna težina jadralca zato je v zaključnih pripravah v prvem planu izguba odvečnih kilogramov. Če smo jadralci v Athenah imeli med 80 in 82 kilogramov imamo v Quingdau med 73 in 79 kilogramov. Žal zaradi moje višine (190cm) spadam med težje jadralce na prvenstvu,torej tiste, ki upajo na kakšen dan močnejšega vetera.

Regatno polje v Qingdau je zelo zahtevno. Močni tokovi, spremenjeni vetrovi. Kateri elementi bodo odločilno vplivali na uvrstitev?

Vsek minimalen detajl bo vplival na regato. Tukaj ne mislim samo na naravne okoliščine vendar tudi na sodnike in regarni odbor. V jadranju smo majhne države postale neverne »velikim« zato nam konstantno mečajo polena pod noge. Npr. v klasii laser še danes angleži niso požrli moje 3. in Godisnovico 4. mesto iz Athen. Na štartni črti bodo vsi jadralci imeli enake pogoje, po štartnem znaku pa bomo videli.

Se boste udeležili otvoritve slovesnosti v Ptičjem gnezdu, glede na to, da so regatna polja v Qingdau?

Slovesnostne otvoritve se nameravam udeležiti če bo logistično, za nas jadralce, dobro izpeljano.

Otvoritve v Athenah se nisem udeležil in mi je bilo kasneje zelo žal.

Beijing – Here we are!

Urška Žolnir

When you were travelling to Athens, you long remained on the reserve list, but than you came home with a medal. Had you believed in such a success before the Olympic Games?

Honestly, I didn't expect anything like that. Most of all I wanted to prove myself that with hard work and persistence I can rank high.

You are among the world's top because of your results. Will there be a fight for medals or not, and on what does this depend?

A fight for medals, if I'll get there, will depend on how good I will fight, if I will do my best, and nothing else.

Do you think the same as in Athens can happen again?

Momentary I can only say that I will aspire to the very best conditions. The rest is up to the destiny. What happened in Athens is part of the past. Now, all of us athletes will be again at the beginning and we'll all be only numbers. Champions will be known at the end of the Olympic Games!

Iztok Čop

Since Slovenia got independent this is the fifth time that you are taking part at the Olympic Games. How did you experience every Olympic Games?

There were big differences between them. The atmosphere often depended on where they took part. For me the Mediterranean was the most pleasant among all. But another important factor for how I experienced the Games was my age and maturity. With 32 the Games in Athens definitely appeared totally different than when I was 12 years younger in Barcelona. But the most important, I never thought of the Games as of an amusement, because I always had high competitive ambitions, and that is why it was always very stressful.

With the exception in Atlanta in 1996, you always came home with a medal. What does one need to win at the Olympic Games?

Especially a lot of will for training and the use of common sense in crucial moments. The burden of the Olympic Games can be very heavy, but at the same time it can be a strong motive. Although I was not completely satisfied with all the rankings, I think at the Olympic performances I have always shown the maximum of the season.

Are these your last Olympic Games?

I guess only time will tell that.

Vasilij Žbogar

You can still vividly remember the medal in Athens. Were the preparations for OG Beijing 2008 the same as four years ago or did you change anything?

The preparations for OG Beijing 2008 (Quíngdǎo) were very different from those for Athens. The winds are totally different and because of that also the technique of sailing and the physical preparations.

While in Athens the sailors had to be prepared for all kinds of wind conditions this is different in Quíngdǎo. Light winds and strong currents, for which a special technique of sailing is required, are prevailing here. The weight of the sailor is very important because of the light winds and that is why the most important part of the final preparation consists of loosing weight. If we had between 80 and 82 kilograms in Athens, now in Quíngdǎo we have between 73 and 79 kilograms. Unfortunately, because of my height (190cm) I am one of the heaviest sailors at this championship, one of those who hope for some stronger wind.

The racing area in Quíngdǎo is very demanding – strong currents, variable winds – which elements will have crucial impact on the ranking?

Each smallest detail will influence the race. That does not include only natural circumstances, but also the judges and the race committee. In sailing the small countries have become dangerous for the "big" ones and that is why they are constantly trying to hinder us. For example, in the laser class the English still cannot swallow my 3rd and Godison's 4th place in Athens. On the starting line all sailors will start under the same conditions, but after the start signal we will see what happens.

Are you planning to attend the opening ceremony in the Bird's Nest, although the racing areas are in Quíngdǎo?

I'm planning to attend the opening ceremony if for us sailors this will be carried out well logically. I didn't attend the opening in Athens and later I regretted it.

Število registriranih športnikov / No. of registered athletes: **3985**

Na olimpijskem programu od / Part of the Olympic programme since:

Športniki so v atletiki tekmovali že na Antičnih olimpijskih igrah (776 pr.n.š.) v teku na en stadij (192 m), hoji, pentatlonu, danes pa predstavlja zelo popularno športno panogo s široko paleto disciplin na olimpijskem programu (47 disciplin). Na programu Iger moderne dobe je že od leta 1896, medtem ko so ženske discipline uvrstili na program iger šele leta 1928.

Athletics was already part of the Ancient Olympic Games in 776 BC; with a stade race (192 metres), pentathlon and walking. However, today it is a very popular sport with a wide variety of different disciplines that are part of the Olympic Games (47 disciplines). Athletics was included in the first modern Olympic Games in 1896, while women were first allowed to participate in track and field events in the 1928 Olympics.

Info o športniku / Info about athlete:

Šport je del njegovega življenja že od otroštva. Njegove sanje so postati olimpijski in svetovni prvak, mogoče tudi svetovni rekorder. Pred tekmo ponavadi meditira in trenira dvakrat na dan, zaenkrat pa tudi ne razmišlja o obdobju po končani športni karieri.

Sport has always been part of my life since childhood. I have been dreaming about gold medals at the Olympic Games and World Championships all my sports career, perhaps also being a world record holder. I usually meditate before the competition and train hard twice a day and I do not think about the period after my sports career.

»Maestro« oz. »Šefe« je začel športno kariero v Velenju leta 1995. Že naslednje leto je debitiral na mednarodnih igrah Brixen v disciplini 2000m zapreke. Ob napornih treningih si vedno pravi: »Pain is temporary, Quitting lasts forever!« V prostem času igrat nogomet in odbojko, sicer pa tudi kolesari in igra tenis.

»Maestro« or »Šefe« started his career in Velenje in 1995. The next year he already made his debut on the international games in Brixen in the discipline 2000 metres steeplechase. While he is training really hard he always says: »Pain is temporary, Quitting lasts forever!« In his free time he plays football and volleyball, likes cycling and playing tennis.

Na olimpijskem programu od / Part of the Olympic programme since:

Gre za enega najhitrejših športov z loparji, saj hitrost žogice dosega tudi prek 300 km/h. Hitrost, spretnost, gibčnost in strelsko hitri refleksi so bistvene sposobnosti športnika, ne smemo pa pozabiti na vzdržljivost, saj športnik lahko na tekmo preteče tudi več kot 6 km. Kot demonstracijski šport je badminton bil na programu Olimpijskih iger v Münchenu leta 1972, vendar je preteklo že 20 let, da je bil uvrščen na redni olimpijski program za igre v Barceloni leta 1992.

Since flight of the shuttlecock has been recorded at speeds over 300 kilometres per hour it is one of the fastest sports with rackets. Speed, agility and lightning-fast reflexes are essential to the game, and of course stamina - players have been known to cover more than six kilometres in a single match. Badminton was contested as a demonstration sport during the 1972 Olympic Games in Munich and it debuted as a full medal sport in 1992 at Barcelona.

Info o športniku / Info about athlete:

Badminton je začela igrati že zelo zgodaj – s sedmimi leti – in kmalu začela tudi tekmovati v kategoriji do 12 let. K uspehu jo žene moto: »Nikoli nisi tako dober, da ne bi mogel biti še boljši.«, zato si vrata rada pušča odprta, tako v povezavi z badmintonom kot poslovno. Sicer pa je jezikovno zelo razgledana, saj se lahko pohvali z znanjem petih tujih jezikov.

She started playing badminton very early – when she was seven – and she also started to participate in competitions in the category up to 12 years. Her success-leading-motto is: »One does never so good, that he or she could not do even better.« That is why she leaves her options open in badminton and in business. She is well versed in languages; she is fluent in five of them.

Na olimpijskem programu od / Part of the Olympic programme since:

Gimnastika je na olimpijskem programu od prvih iger moderne dobe, vendar so se discipline menjavale. Pri športni gimnastiki se je leta 1924 nekako ustalil moški program, medtem ko so ženske začele nastopati 1928 v Amsterdamu. Mnogo kasneje se je na program uvrstila ritmična gimnastika, saj je bila prvič predstavljena leta 1984 v Los Angelesu in pa trampolin, ki se je uvrstil na program iger v Sydneyu leta 2000.

Gymnastics has been part of the Olympics since the first modern Games, but the disciplines were changing. The Olympic programme of Artistic Gymnastics for men began to settle in 1924, while women began competing in Olympic gymnastics at the Games in Amsterdam in 1928. The rhythmic competition was introduced into the Olympic Games much later, in 1984 in Los Angeles and the trampoline in 2000 at the OG in Sydney.

Večkratni svetovni in evropski prvak na bradljih, ki trenira v ljubljanskem Narodnem domu že od leta 1983. Svetovna konkurenca ga pozna od leta 1993 z nastopom na evropskem mladinskem prvenstvu, prvi olimpijski nastop pa si je pritevadolj leta 1999 za igre v Sydneyu. Skozi zahteven kvalifikacijski sistem se mu žal ni posrečilo uvrstiti na POI Atene 2004, tako da je z naslovom svetovnega prvaka, in tako priborjenim mestom na POI Peking 2008, več kot zadovoljen. Po športni karieri pa si želi umirjenega družinskega življenja.

Multiple world and Europe champion on parallel bars has been a member of the Narodni dom sports association in Ljubljana since 1983. His first international competition was the European Junior Championship, and he first attended the Olympic Games in 2000 in Sydney. Because of the pretentious qualification system unfortunately he could not participated at the OG in Athens, and that is why he is more than satisfied with the world champion title and so the possibility to participate at the OG in Beijing in 2008. After the sports career he just wants to enjoy a peaceful family life.

He started sailing in 1991 in Koper and 3 years later he debuted at the Cadet World Championship. In his soul he is a poet who does not give up his dreams, but still an athlete at the beginning of his career.

V jadranju je že dolgo časa, saj jadra že od leta 1993. Debitiral je v razredu optimist na EP leta 1995 ter si skozi leta utiral pot k najboljšim razreda finn. Pravi: »Pokaži kaj znaš.« in očitno še ni vsega pokazal, saj še ne misli skleniti svoje športne kariere.

He has been sailing since 1993. In the Optimist Class his first ECH was in 1995, but throughout the years he became one of the best sailors in the Finn Class. He says: »Do your stuff!« and since he has no intentions of finishing his career, obviously he still did not show all he can do.

Info o športniku / Info about athlete:

Žačel je že pri otroških letih, saj jadra že od leta 1982. Vasco, kot ga kličejo prijatelji, gradi svojo pot na trdem delu, kot njegov moto: »Krepat, krepat me ne molat.« Nerad se hvali, pa vendar ima za seboj dobro mero visokih uvrstitev, nenačadnje tudi bronasto olimpijsko medaljo. Svojo poslovno pot vidi tako kot športno, prevzeto z olimpijskim načelom »hitreje, više, močnejše.«

He started as a child; he has been sailing since 1982. Vasco, as his friends call him, depends upon hard work, that is why his motto is »Dying, dying, but never stop trying.« He does not like to blow his own trumpet, but he can be proud of achieving many good results, also a bronze Olympic medal. In his business life he follows the same Olympic principles as in sports: »Citius, Altius, Fortius.«

Na olimpijskem programu od / Part of the Olympic programme since:

Čeprav "judo" po japonsko pomeni uglajeno, vlijudno oz. nežno pot, gre vseeno za borilni šport, ki združuje različne borilne veščine. Na olimpijski program se je uvrstil na Japonskem na igrah v Tokiju leta 1964, ko je država gostiteljica lahko na program uvrstila eno športno panogo, medtem pa so ženske pričele tekmovati še v Barceloni 1992.

Although Judo means "the gentle way" in Japanese it still is a fighting sport, combining various techniques. Judo became an Olympic sport for men in the 1964 Tokyo games, when the host country was allowed to put a sport on the Olympic programme. Judo became an Olympic sport for women in 1992 in Barcelona.

Luca ima za seboj že dobro desetletje borb, pohvali se lahko s črnim pasom in tako predstavlja resno športnico – nasprotnico v najtežji kategoriji. Z judom je začela v osnovni šoli leta 1995, na prelomu tisočletja pa se je mednarodni konkurenči kot kadetinja predstavila na evropskem prvenstvu z osvojeno bronasto medaljo.

Luca can look back on a good decade of fights, she is a proud owner of a black belt and is so a serious sportswoman – an opponent in the heaviest category. She started performing judo in primary school in 1995, and in 2000 she won a bronze medal at the Cadet European Championship.

Info o športniku / Info about athlete:

Športnica iz Atenske pravljice in osvojeno bronasto medaljo rada kolesari in vesla. Pa vendar je njen prva ljubezen judo, ki je del njenega življenja že od leta 1992. Debitalira je kot mladinka na evropskem prvenstvu leta 1995, pa čeprav z ne tako odmevno uvrstitvijo, je z vztajnostjo in močno željo po uspehu sebi in nasprotnicam pokazala, da je trdna volja še najboljša.

She was part of the Athens fairy tale, where she won a bronze medal. She likes cycling and rowing but her love is judo, which has been part of her life since 1992. Her first Junior European Championship in 1995 did not end with very good results, but the persistence and strong will for winning helped her to prove herself and showed her opponents that the strong will is the most important factor.

Info o športniku / Info about athlete:

Nima prav veliko prostega časa, ko ga pa ima, igra nogomet. Predstavlja »težkega« nasprotnika, ki mu ne manjka izkušenj, saj tamati pozna že od leta 1995. Mednarodni konkurenči se je predstavil leta 1999 s 7. mestom na OFEM, svoj prvi olimpijski nastop pa si je poplačal s trudom in nikakor še ne razmišlja o koncu športne kariere.

He does not have a lot of free time, but when he does, he plays football. He is a tough opponent with lots of experiences – he has been practicing tamati already since 1995. He was introduced to the international competitors in 1997, with the 7th place in EYOF and in his first Olympic participation he was awarded for the effort he made. He definitely does not think about the end of his career yet.

Na olimpijskem programu od / Part of the Olympic programme since:

Kajak-kanu na mirnih vodah je bil na programu olimpijskih iger leta 1924 kot demonstracijski šport in od leta 1936 kot del uradnega programa, medtem ko so ženske nastopale samo v kajaku od leta 1948. Slalom na divjih vodah pa je bil prvič del uradnega programa še le leta 1972, vendar zbrisani v letih 1976 do 1988 in vrnjen na program za igre v Barceloni 1992.

Canoe/kayak, consisting solely of Flatwater Racing, was a demonstration competition at the 1924 Olympic Games before gaining full-medal status in 1936, while women began competing only in kayaks in 1948. Slalom Racing was first held in 1972. The sport was not contested in the Olympics between 1976 and 1988, but returned to the Olympic programme in Barcelona in 1992.

Info o športniku / Info about athlete:

Športnik mnogih hobijev, pa vendar takih, ki sovpadajo z njegovim športom. Rad bere, surfa po internetu, potuje, fotografira in vse to zajame na svoji spletni strani, ki jo tudi sam vzdržuje. S kajakom prijateljuje že od leta 1991, konkurenči pa se je predstavil leta 1997 na mladiškem svetovnem prvenstvu. Po športni karieri si želi najti novo področje, kjer bo uspešen in ne bo povezano s kajakom.

He has many hobbies, but all of them are somehow connected with sports. He loves to read, to surf the internet, to travel, to take pictures and furthermore, he puts all this on a webpage, which he alone designs and takes care of. He has been friends with the kayak since 1991, but he introduced himself to other competitors in 1997 at the Junior World Championship. After the sports career he would like to discover a new field in which he will be doing great and of course it will not have to have something to do with kayaking.

Info o športniku / Info about athlete:

S kajakom na mirnih vodah je pričela leta 1993 v Kopru, 1996 pa že debitirala na evropskem mladiškem prvenstvu v Poznanu. Olimpijske igre v Atenah so se ji izmuznile le za nekaj stotink, zato je bila kvalifikacija za POI Peking toliko slajša.

She started kayaking in flatwaters in 1993 in Koper; in 1996 she already attended the European Junior Championship in Poznan. She missed the Olympic Games in Athens for just a few hundredths, which is why the qualifications for the OG in Beijing were even more pleasing.

Žogica pri namiznem tenisu leti s hitrostjo tudi do 180 km/h z rotacijo do 151 vrtljajev na sekundo in je danes eden najbolj razširjenih športov po svetu, tako tekmovalno kot rekreativno. Igralci uporabljajo različne udarce npr. "the Hit" – udariti, poriniti in pa tehnike igre "the Chop" – rezati, sekljati, nekateri pa so znani po tem, da "ubijajo" v igri; imajo t.i. "Killer instinct". Ne glede na ta značaj pa je namizni tenis postal del programa olimpijskih iger leta 1988 v Seulu.

The ball at table tennis can reach 180 km/h with up to 151 rotations per second and it is one of the most widespread sports in the world, both competitively and recreationally. The players use different strokes e.g. "the Hit" – hit, push and techniques "the Chop" – cut, slice, but some players are famous for "killing" in the game; they have a so called "Killer instinct". However, irrespective of this nature table tennis has been part of the Olympic programme since 1988 in Seoul.

Plavanje je bilo prisotno na vseh olimpijskih igrah, vendar na začetku le v prosti in prsni tehniki, leta 1904 se je pridružila še hrbtna tehnika in mnogo kasneje še delfin. Ženske so pričele nastopati leta 1912, sedaj pa moški in ženske nastopajo vsak v 16. disciplinah.

Swimming has been held at every Olympic Games, but the early events were usually only conducted in freestyle (crawl) or breaststroke. Backstroke was added as of the 1904 Games and the butterfly stroke much later. Women's swimming was first held at the 1912 Olympics and now men and women each compete in 16 different disciplines.

Info o športniku / Info about athlete:

Kot je predan plavanju je prav tako zavzet študent na področju imunologije. V tej smeri za hobby opravlja raziskovalno delo na univerzitetnem laboratoriju, ob vsem tem pa tudi inštruirja in rad kuha. Glede na to, da trenira že od leta 1992, ima v žepu tudi nekaj državnih rekordov, prvo večjo mednarodno tekmo pa predstavlja svetovno prvenstvo v Barceloni leta 2004.

He is devoted to swimming as much as he is devoted to studying immunology. For this purpose he does research at the university laboratory, but besides all this he also teaches and likes cooking. Since he has been training since 1992, he already set some national records. The first important international competition was the World Aquatics Championship in Barcelona in 2003.

Info o športniku / Info about athlete:

Želi si biti najboljši kot je lahko, kar mu tudi uspeva že od leta 1993, začel pa je plavati leta 1986 pri PK Ilirija. S plavalnim športom je izredno povezan in strmi k temu, da bi v plavanju vzpostavil boljše pogoje. V prostem času zelo rad presedi za računalnikom in surfa po internetu, hkrati pa se kratkočasi s kakšno igrico sodokuja.

He wants to be his best and he is successful at it since 1993, whilst he started swimming in 1986 as a member of the Ilirija Swimming Club. He is extremely connected with swimming and is striving to achieve the best possible conditions for swimmers. In his free time he enjoys the computer, loves surfing the internet, and at the same time he plays sudoku.

Izobražuje se za kreativno oglaševalko in v tem poklicu si želi ostati po plavalni karieri, katera jo spremlja že od leta 1993. Po dežju vedno posije sonce in takšna je tudi njena športna pot s prvim uspešnim mednarodnim nastopom na OFEM leta 1999, kjer je osvojila 1. mesto na 200m hrbtno. Sicer pa rada rola, posluša glasbo in igra obojko na rivki.

She is studying creative design and wants to work this profession after the termination of her swimming career, which she has been following since 1993. Every cloud has a silver lining and that is how her sports career looks like with her first successful international participation in EYOF in 1999, where she won the gold medal in 200 metres backstroke. Her hobbies are rollerblading, listening to music and playing beach volley.

Na olimpijskem programu od / Part of the Olympic programme since:

Strelstvo je bilo prisotno na skoraj vseh olimpijskih igrah (brez nastopa leta 1904 in 1928). Število in vrsta disciplin so se skozi leta veliko spremajala, vendar pa se je program disciplin po 2. svetovni vojni več ali manj standardiziral. Ženske so pričele nastopati leta 1968, vendar so moške in ženske discipline začeli ločevati leta 1984 in še 1996 leta so ženske nastopale v čisto ločenih disciplinah.

Shooting has been contested at most of the Olympic Games except during the 1904 and 1928 Games. The programme has varied a lot but since World War II the programme has become relatively standardised. Women were first allowed to compete in Olympic shooting in 1968. In 1984 separate events for women and men were introduced and it has been only since 1996 when men's events have begun being separated from the women's.

Info o športniku / Info about athlete:

Lahko rečemo, da gre za veterana Olimpijskih iger, saj bodo to njegove že sedme. Zanimivo pri njemu je, da si zastavi cilj in pri njemu vtraja. Na svoji poti, ki traja že od leta 1971, je že napolnil svojo vitrino z medaljami na najvišjih tekmovanjih, med njimi pa se tudi blešči zlata iz Olimpijskih iger v Sydneyu leta 2000. Proste ure pa zelo red preživi v gorah s svojo družino.

Since this is already his seventh participation, we could say he is a veteran of Olympic Games. The interesting thing about him is that he sets himself a goal and sticks to it. Since 1971 he has won medals in the highest competitions, among which one gold medal from at Olympic Games in Sydney in 2000. When he is free he spends time in the mountains with his family.

Število klubov / No. of clubs: **7**

Število registriranih športnikov / No. of registered athletes: **450**

Na olimpijskem programu od / Part of the Olympic programme since:

Gre za hitro disciplino, saj čolni dosegajo hitrost tudi do 10m na sekundo, tako da morajo športniki morajo imeti vzdržljivost maratonca, ki prve kilometre šprinta. Sicer pa je veslanje na programu olimpijskih iger že od leta 1896, vendar je bilo tistega leta zaradi slabih vremenskih razmer tekmovanje v veslanju odpovedano. Ženske so pričele nastopati leta 1976, leta 1996 pa so na olimpijskih igrah predstavili tudi discipline luhkih veslačev.

It is a very fast discipline; the boats can reach up to 10 metres per second and that is why the athletes have to be as persistent as marathoners, who sprint for the first few kilometres. The only time that rowing has not been contested in the Olympics was in 1896, because of rough seas which forced the cancellation of the events. Women were admitted to the Olympic programme in 1976 and in 1996 Olympics the lightweight events have been introduced.

Info o športniku / Info about athlete:

Nejc se z veslanjem ukvarja že 10 let in je v tem času bil že velikokratni državni prvak. Enega izmed svojih ciljev je izpolnil z uvrstitevijo na Olimpijske igre, seveda pa gredo njegove želje še dlje, saj upa na finale.

Nejc has been rowing for 10 years and has been national champion many times. He already achieved one of his goals while placing himself to the Olympic Games but of course his wishes go a little further; he wants to row in A final.

Info o športniku / Info about athlete:

Veslati je začel leta 1994 v Bresternici, desetletje kasneje pa se je predstavil na prvi večji mednarodni tekmi in sicer na mladinskem svetovnem prvenstvu z osvojenim 1. mestom. Meni, da se trud vedno poplača in ne dvomimo, da bo s tako zavzetostjo postal tudi uspešen podjetnik, mogoče tudi politik.

He started rowing in 1994 in Bresternica, ten years later he attended the first important international race, the Junior Rowing World Championship, where he ended up first. He thinks it is always worth the effort and certainly this will help him become a successful businessman and maybe also a politician.

Info o športniku / Info about athlete:

Zanimivo je, da je najprej 4 leta treniral hokej na ledu in nato leta 1992 pristopil k veslaškemu klubu Bled. 4 leta kasneje je bil že član posadke za svetovno mladiško prvenstvo v Glasgowu, še 4 leta kasneje pa že član olimpijske posadke v Sydneju. Prav velikih ambicij še nima, pravi pa, da rad uživa vikende, poletja in seveda obilne zajtrke.

It is interesting that he had firstly been training ice hockey for four years, and then in 1992 he switched to the rowing club Bled. 4 years later he was already a member of the rowing crew at the Junior World Championship in Glasgow, and another 4 years later he was a member of the Olympic crew in Sydney. He does not have any great ambitions, but he says he enjoys the week-ends, the summer and of course big breakfasts.

Info o športniku / Info about athlete:

Roz ima pester nabor hobijev, kjer poleg ribolova najdemo še kajak na divjih vodah, turno smučanje, kajting in pohodništvo. V športu je prisoten praktično že celo življene, saj je pričel s hokejom na ledu že pri treh letih, leta 2004 pa je začel veslati. Leta kasneje je debitiral na svetovnem mladiškem prvenstvu v četvercu, po športni karieri pa se želi zaposlit na področju ekologije in uživati v prostih vikendih.

Roz has many hobbies, besides fishing there is kayaking in wild waters, ski touring, kiting and hiking. He is practically doing sports all his life; he started with ice hockey when he was three years old and in 2004 he started rowing. One year later he first attended the World Junior Championship in the discipline four without coxswain. After his sports career he wants to work in the field of ecology and enjoy the free week-ends.

Oprema slovenske olimpijske delegacije

Slovenia Olympic Team Outfit

Slavnostne priložnosti

Podoba oblačil za slavnostne priložnosti iz Mure d.d. je umirjena, zasnova je nova in modna. Barvna slika, na trenutke zelo hladna in funkcionalnega izgleda, je dopolnjena s skoraj mlečnimi pasteli. Tudi dodatki, čevlji, pasovi, torbice so tonsko usklajeni in ne izstopajo. Tako tkanine kot tudi usnje so obdelane z leskom, ki prehaja od srebrne proti obarvanim zlatim tonom, do sivih, zelenkasto zlatih in natur tonov.

The celebration occasions

The look of the outfit from Mura d.d. is classy and the ideas are new and modern. Like a colour painting, at moments very cold and functionally looking, but supplemented with almost white pastel colours. The colours of accessories, shoes, belts and handbags are also chosen from the same palette of colours and do not stand out. Both, the textile and the leather are covered with shiny colours which pass over from silver to golden shades, to grey, greenish gold and natural colours.

Prosti čas

Francoski oblikovalec oblačil in obutve Le Coq Sportif je našel svoj navdih v dogodkih iz sedemdesetih in osemdesetih let prejšnjega stoletja, pri snovanju modnih izdelkov živahnih barv pa zagotavlja udobje in lahkotnost.

Free time

Le Coq Sportif - a French company designing clothes and shoes has found its inspiration in the 70s and 80s of the last century and its fashionable products in vivid colours ensure comfort and a soft feel.

Oprema slovenske olimpijske delegacije

Slovenia Olympic Team Outfit

Osnovna športna oprema

Idejna zasnova Le Coq Sportif bazira na slovenskih nacionalnih simbolih slovenskega grba - Zvezde, Triglava (gore) in Vode ter na slovenskih barvah - modri, zeleni in beli. Izbrani so vrhunski materiali, ki zagotavljajo športnikom udobnost, zračnost in zaščito pred zunanjimi vplivi.

General sports equipment

The idea of Le Coq Sportif is based on Slovenian national symbols of the Slovenian coat of arms – the stars, the mount Triglav and water, but also on Slovenian national colours – blue, green and white. The best materials have been chosen, because they provide comfort, breathability and protection from external elements for the athletes.

Tekmovalna oprema

Le Coq Sportif je uporabil nove materiale, ki so specjalno obdelani s kokosovim aktivnim ogljikom, kot npr. »revolution gloss light«, ki je zelo lahek in ob enem čvrst, odporen na drgnjenje in piling, zagotavlja UV zaščito in je bakteriološko neutralen. Uporabljena je tudi "madra perla", vtkana karbonska vlakna, ki delujejo kot regulator toplotne, znižujejo koncentracijo mlečne kisline in izboljšujejo prekrvavitev ter oksidacijo celic.

Competition equipment

Le Coq Sportif has been using new materials, which are specially treated with the active coconut hydrogen, such as »revolution gloss light« which is very light and at the same time compact, resistant to rubbing and pilling, providing UV protection and is bacteriological neutral. Furthermore, "madre perla" is being used, interwoven elements of carbon fibre, which function as a temperature regulator, reduce the concentration of lactic acid and improve blood circulation and oxidation of cells.

Šport v Sloveniji

"Ste majhna nacija, a veliki v športu!" S temi besedami je tedanji predsednik Mednarodnega olimpijskega komiteja Juan Antonio Samaranch leta 1993 ob obisku v Sloveniji povzel navdušujoč razvoj športa in olimpijske ideje v Sloveniji. Samostojno članstvo v olimpijski družini je leta 1992 Sloveniji odprlo novo obzorje v razvoju športa in olimpijskih idealov.

Zgodovina športa:

Športna in olimpijska tradicija sta v Sloveniji del nacionalne kulturne dediščine. Že leta **1689** je zgodovinar Janez Vajkard Valvasor v svojem delu "Slava vojvodine Kranjske" med drugim opisal smučarje z Bloške planote. To je hkrati najstarejši zapis o smučanju v centralnem delu Evrope. Kljub dokumentiranemu zgodnejšemu obstoju športnih prvin pa so slovenska športna društva nastala skoraj dvesto let kasneje - prvo slovensko športno društvo **Južni Sokol** je bilo ustanovljeno leta **1862**.

Med velikane športne kulture v Sloveniji sodi prvi znanilec slovenskega olimpizma **Rudolf Cvetko (1880-1997)**, ki se je leta 1912 kot prvi Slovenec, član avstrijske ekipe, udeležil OI v Stockholm; **Leon Štukelj (1898-1999)**, ki je v času od leta 1924 do 1936 sodeloval na treh OI in osvojil 3 zlate ter po eno srebrno in bronasto odličje;

Miroslav Cerar (1939) je po 2. svetovni vojni ponovno obudil sloves slovenke gimnastike in osvojil dve zlati medalji in eno bronasto na Olimpijskih igrah v Tokiju in Mexico Cityju;

Razvoj sodobnega športa je v Sloveniji neločljivo povezan z inženirjem **Stankom Bloudkom (1890-1959)**, ki ni bil le zagret športnik, temveč tudi graditelj letal in športnih objektov. Bil je eden izmed najbolj gorečih zagovornikov olimpijske ideje v Sloveniji in leta 1948 kot edini Slovenec doslej postal član MOKa.

Olimpijski komite Slovenije in razvoj športa:

Leta 1991 je bil ustanovljen **Olimpijski komite Slovenije**, ki ga je leto kasneje priznal Mednarodni olimpijski komite. Slovenski športniki so pod slovensko zastavo prvič nastopili na zimskih olimpijskih igrah v Albertvillu leta 1992. Danes tekmovalke in tekmovalci sodelujejo na največjih svetovnih in evropskih športnih tekmovanjih, na katerih so praviloma zelo uspešni. Doslej so na poletnih **olimpijskih igrah** osvojili kar **39 medalj**, v samostojni Sloveniji **14** in od leta 1991 na svetovnih ter evropskih prvenstvih že več kot **680** medalj. Najboljše rezultate slovenski športniki dosegajo v veslanju, atletiki, judu, jadranju, športni gimnastiki, padalstvu, plesu, strelstvu, deskanju na snegu in teku na smučeh. Tudi v ekipnih športih - rokometu odbojki, nogometu in v zadnjem času v košarki, dosegajo uspehe. Vidne uspehe pa slovenski športniki dosegajo tudi v drugih panogah.

Po osamosvojitvi leta 1991 skuša Slovenija razviti sodobne organizacijske in zakonske razmere za razvoj športa. Leta **1994** se je OKS združil s Športno zvezo Slovenije. Nova krovna športna organizacija Olimpijski komite Slovenije - Združenje športnih zvez združuje **66 nacionalnih panožnih športnih zvez** ter **84 lokalnih športnih organizacij**, z več kot **5300 društvi** in **450,000 posamezniki**. OKS skuša razvijati tako vrhunski šport kot šport za vse. Država preko Ministrstva za šolstvo in šport ustvarja pogoje za razvoj športa z Nacionalnim programom športa, ki ga je sprejel slovenski parlament in opredeljuje kratkoročne, srednjeročne in dolgoročne cilje. Program opredeljuje uresničevanje javnega interesa v športu in zajema celostno organizirano športno dejavnost - športno vzgojo, rekreacijo, kakovostni šport, vrhunski šport in invalidski šport. Za razvoj na področju izobraževanja in znanosti v športu v Sloveniji skrbi Fakulteta za šport.

Sports in Slovenia

"You are a small nation, but great in sports!" With these words Mr. Juan Antonio Samaranch, former IOC President, expressed his opinion on the development of sports and the Olympic Movement in Slovenia during his visit to Slovenia in 1993.

Sports History:

In Slovenia, sports and the Olympic tradition represent part of the national heritage. As early as **1689**, **Janez Vajkard Valvasor**, historian, described the "Bloke highlands skiers" in his work "The Glory of the Duchy of the Upper Carniola", which is the oldest description of skiing in the Central European region. Nevertheless, the first Slovenian sports associations emerged almost 200 years later – the first association, called Južni Sokol (South Falcon), was established in **1862**.

Rudolf Cvetko (1880-1977) was the first Olympic athlete from Slovenia, competing in the 1912 Stockholm Games as a member of the Austrian National Team;

Leon Štukelj (1898-1999) participated at three Olympic Games, from 1924 through 1936, and won 3 gold medals, one silver and one bronze;

After the Second World War, **Miroslav Cerar (1939)** renewed the reputation of Slovenian gymnastics, winning two gold medals and one bronze at the Olympic Games of Tokyo and Mexico City;

Stanko Bloudek (1890-1959), athlete and sports engineer, was a promoter of the Olympic ideal in Slovenia; in 1948 he became the only IOC member from Slovenia thus far.

Olympic Committee of Slovenia and sports development:

The **Slovenian Olympic Committee** was established in **1991**. It was recognised by the International Olympic Committee a year later; in 1992, for the first time ever, Slovenian athletes competed under their own flag at the Winter Olympic Games of Albertville. Ever since, our athletes have participated in every international World and European Championship, obtaining excellent sports results - **39**

Olympic medals (some under Austrian and Yugoslavian flags and **14** for the **independent Slovenia**) and over **680** medals at World and European Championships. Traditionally, the best achievements were in rowing, athletics, judo, sailing, artistic gymnastics, parachuting, dancing, shooting, snowboarding and cross-country skiing, although relatively good results were also obtained in team sports such as basketball, volleyball, football and handball.

Since gaining its independence in 1991, Slovenia has been steadily striving for the development of modern organizational and legislative conditions and circumstances for the development of sports. In **1994**, our NOC merged with the Association of Sports Federations. The newly merged umbrella sports organisation, the Olympic Committee of Slovenia – Association of Sports Federations, connects **66 national sports federations**, and **84 local sports organisations**, together with more than **5,300 clubs** and associations and **450,000 members**. Our NOC's objectives are to develop top sports, as well as sports for all activities. The State, with the Ministry of Education and Sport, has created the necessary conditions for the development of sports through the National Programme of Sport, passed in the Slovenian Parliament as the means of determining short-term, medium-term and long-term objectives. The National Programme defines the so-called "public interest" in sport and covers the entire range of organized sports activities – physical education, sport for all, high performance sports and sport for disabled people. The Faculty of Sport is responsible for the development of sports education and sports science in Slovenia.

Slovenski olimpijski heroji

Rudolf CVETKO (1880-1977)

Rudolf Cvetko se je kot član avstrijske olimpijske sabljaške ekipe udeležil poletnih iger v Stockholmumu leta 1912 in kot prvi Slovenec osvojil prvo olimpijsko kolajno. Bil je avstro-ogrski oficir in inštruktor sabljanja Vojnega inštituta Wiener Neustadt v Avstriji. Kasneje je postal eden vodilnih športnih organizatorjev in sabljaških trenerjev v Sloveniji.

Leon ŠTUKELJ (1898-1999)

Legenda slovenskih olimpijskih herojev je umrl le 4 dni pred svojim 101. rojstnim dnevom in je ob stoletnici OI moderne dobe kot najstarejši živeči olimpionik na povabilo Mednarodnega olimpijskega komiteja (MOK) sodeloval na slovesni otvoritvi v Atlanti. Uspelo se mu je uvrstiti v sam svetovni vrh. Samo na olimpijskih igrah si je priteloval díl šest odličij, od tega dve zlati v Parizu leta 1924, eno zlato in dve bronasti v Amsterdamu leta 1928 in za zaključek kariere, star 37 let, še eno srebrno v Berlinu leta 1936. Na svetovnih prvenstvih je osvojil 14 kolajn. Leon Štukelj, legenda svetovnega športa, je zapisan v zgodovini slovenskega športa kot tekmovalec z največ uspehi na velikih mednarodnih športnih tekmovanjih, soustanovitelj Olimpijskega komiteja Slovenije in podpisnik slovenske olimpijske listine ter ostaja ponos slovenskega naroda in vzor za športno in zdravo življenje.

Miroslav CERAR (1939)

Miroslav Cerar, v vsem svetu znan kot najbolj elegantni in najboljši »konjenik« svoje tekmovalne dobe je po drugi svetovni vojni za sebe in Slovenijo priboril največ kolajn, zato ga uvrščamo za najuspešnejšega športnika Slovenije od 1945 dalje. V letih 1958 in 1970 je na olimpijskih igrah, svetovnih in evropskih prvenstvih osvojil 30 odličij. Njegova paradna disciplina je bil konj z ročaji, na katerem je osvojil dve zlati olimpijski kolajni (1964, 1968) ter postal trikrat svetovni (1962, 1966, 1970) in trikrat evropski prvak (1961, 1963, 1969). Leta 1991 je bil odlikovan z olimpijskim redom in postal častni član Olimpijskega komiteja Slovenije, predsednik iniciativnega odbora za ustavitev Olimpijskega komiteja Slovenije in bil kasneje izvoljen za podpredsednika slovenskega NOK. Od leta 1994 je predsednik Slovenske olimpijske akademije.

Stanko BLOUDEK (1890-1959)

Zagotovo je bil za razvoj slovenskega športa izjemnega pomena »oce slovenskega športa« ing. Stanko Bloudek. Bil je tekmovalec (udeležil se je olimpijskih iger v St. Moritzu leta 1928), trener, konstruktor, organizator in član MOK. Od leta 1964 se njemu na čast najuspešnejšim športnikom in športnim delavcem za njihove dosežke podeljuje »Bloudkovo priznanje«, najprestižnejše slovensko športno priznanje.

Slovenian Olympic Heroes

Rudolf CVETKO (1880-1977)

The first Slovenian ever to receive an Olympic medal as a member of the Austrian sabre team in Stockholm in 1912. He was an officer in the Austro-Hungarian army and fencing instructor at the Military Institute of Wiener Neustadt, Austria. Later, he became one of the leading sports organisers and fencing trainers in Slovenia.

Leon ŠTUKELJ (1898-1999)

The doyen of Slovenian Olympic champions died only 4 days before his 101 birthday and was honored as the oldest living Olympic Champion at the official opening of the 1996 Atlanta Olympic Games. This exceptional gymnast and long-lived athlete won the Olympic gold in Paris in 1924 and Amsterdam in 1928; in Berlin in 1936, he won the silver at the age of 37. Altogether, he won 6 Olympic medals (three gold, one silver and two bronze). In addition, Štukelj won 14 trophies at World Championships. A true sports ambassador, he leaves the legacy of a lifetime's dedication to sport, through his unceasing involvement in Slovenia's sports movement, as co-founder of the Slovenian Olympic Committee, co-signer of the Slovenian Olympic Charter and for the legendary Štukelj manœuvre.

Miroslav CERAR (1939)

The last "romantic" on the pommel horse is the most successful athlete in the history of Slovenian sports. Between 1958 and 1970, he won 30 medals at the Olympic Games, World and European Championships. His speciality was the pommel horse, on which he became a double Olympic champion (1964, 1968), triple World (1962, 1966, 1970) and European champion (1961, 1963, 1969). In 1991, Miro Cerar, who was also awarded the Olympic Order and honorary membership on the Olympic Committee of Slovenia, became president of the Initiative Board for the founding of the Olympic Committee of Slovenia. Later, he was elected vice-president of the Slovenian NOC. Since 1994 he has been president of the Olympic Academy of Slovenia.

Stanko BLOUDEK (1890-1959)

Undoubtedly, Stanko Bloudek exerted the greatest influence on the development of sports in Slovenia. Bloudek, also called "Father of the Slovene sport", was a builder and inventor, an athlete (he participated at the St. Moritz Olympic Games in 1928), a coach and a sports official who had great impact on local and international levels and was the first, and so far the only, IOC member from Slovenia. In his honour, the Bloudek Award, the most prestigious sports award in Slovenia, has been given to athletes and sports representatives for the greatest sports achievements every year since 1964.

Splošno o Kitajski in Pekingu

Peking je pridobil organizacijo Iger XXIX. Olimpijade 13.7.2001 v Moskvi z največ pridobljenimi glasovi pred Istanbulom, Osako, Parizom in Torontom. Tako bo Kitajska prvič gostila olimpijske igre, ki se bodo pričele 8.8.2008. Sledilo bo 16 tekmovalnih dni in podeljenih bo 302 olimpijskih naslovov z zaključkom iger 24.8.2008.

O Kitajski ...

Geografija (pokrajinsko je zelo razgibana): od puščave, step, himalajskih osemisočakov, rečnih in jezerskih dolin, visokih planot, pragozda in deževnega tropskega gozda do 18.000 km morske obale na Pacifiku

Velikost: 9,6 mio km²

Podnebje: 4 letni časi, pretežno subtropsko podnebje, sicer pa tudi tropsko podnebje in visoka planota

Zgodovina: starodavna civilizirana država s 5000 let staro zgodovino, med drugim so iznašli kompas, papir, smodnik, hrkrati pa imajo veliko starodavnih zapisov kitajske modrosti

Prebivalstvo: 1,3 miljarde, večina narodnosti Han (sicer imajo 54 etničnih skupin), uradni jezik je mandarinska kitajščina

Valuta: Renminbi (RMB), 1 EUR = 10,66 RMB

Časovni pas: 8. časovni pas; v poletnem času 6 ur pred časom v Sloveniji, v zimskem času 7 ur pred časom v Sloveniji

Useful information

... in Pekingu

Peking je kot glavno mesto hkrati kulturni in diplomatski center Kitajske že 850 let. Predstavlja središče Kitajske in se je razvilo v moderno mednarodno mesto z 12,6 milijoni prebivalcev, sicer pa je znan tudi po svoji starodavnvi kulturi stari več kot 3000 let.

Podnebje in temperatura: pol vlažno podnebje s 4 letnimi časi (kratka pomlad in jesen ter dolgo poletje in zima), povprečno 13°C (januar -3,7°C, julij 25,2°C), avgusta povprečno 24,9°C (max 36,1°C) in 77 % vlažnost

Znamenitosti: 7309 prizorišč zgodovinskega ali kulturnega značaja, med njimi najbolj znani Kitajski zid (The Great Wall), Prepovedano mesto (Forbiden City), Nebeški tempelj (The Temple of Heaven), Poletna palača (The Summer Palace)

Generally About China and Beijing

On July 13th 2001 the IOC elected Beijing to be the host of the Olympic Games in 2008. Beijing was selected over its competitors Paris, Toronto, Osaka and Istanbul. China is the host of the Olympic Games for the first time. The Games are starting on August 8th 2008 and will last for 16 days, by the end of the games on 24th August 2008, 302 Olympic Titles will be awarded.

About China ...

Geography (China has a huge amount of different landscapes): deserts, steppes, the Himalayan eight-thousandner, alluvial plains, calcareous tablelands, jungle and tropical rain forest, but also 18.000 kilometres of coast in the Pacific Ocean.

Area: 9.6 million km²

Climate: 4 seasons, predominantly subtropical climate, but also tropical climate and tablelands.

History: ancient civilized country with 5000 years of history, which among other things invented the compass, paper, gunpowder, and at the same time has many ancient notes of Chinese wisdoms.

Inhabitants: 1.3 milliard, the majority being of Han nationality (there are 54 ethnic groups), the official language is mandarin Chinese

Currency: Renminbi (RMB), 1 EUR = 10.66 RMB

Time zone: the 8th time zone; in summer time 6 hours before Slovenia, in winter time 7 hours before Slovenia

Useful information

... and Beijing

For the last 850 years Beijing has been the capital and also the cultural and diplomatic centre of China. It represents the centre of China and has developed into a modern international city with 12.6 millions inhabitants, otherwise it is also known for its ancient, more than 3000 years old culture.

Climate and temperatures: half humid climate with 4 seasons (short spring and autumn, and long summer and winter), on average 13°C (in January -3,7°C, in July 25,2°C), in August on average 24,9°C (max 36,1°C) and 77 % humidity.

Attractions: 7309 stages of historical or cultural character, among the most famous are The Great Wall of China, The Forbidden City, The Temple of Heaven and The Summer Palace.

Kitajske navade

Pozdravljanje, spoznavanje in poslovna srečanja

Ob srečanju je rokovanje običajno. Če se srečate prvič, se istočasno predstavite, sicer pa se pri srečanju ali slovesu ne objemajo in poljubljajo. Kitajce naslavljajte s priimkom na prvem mestu in po potrebi z njegovim naslovom (npr. predsednik). Osebni prostor je manjši, vendar se izogibajte dotikanja, bodite pazljivi pri izbiri teme pogovora in ne obnašajte se preveč svobodno.

Pri dajanju in sprejemanju vizitk uporabite obe roki in jo pri podajanju obrnite tako, da jo bo prejemnik lahko prebral. Sprejeto vizitko ne spravite takoj v žep, pač pa jo pregledate, obrnite, če je še kaj na drugi strani in nato spravite v etui za vizitke.

Kitajci neradi sklepajo posle z neznanci, zato je dobro opraviti začetni stik preko posrednika, ki pozna obe strani. Znani so po legendarnih pogajalskih veščinah (potrežljivi in temeljni, pozna obojestranski položaj, sposobnosti in namere) ter so vedno korak dlje. Pri poslu upoštevajo hierarhijo in načelo senioritete, omrežje odnosov, poznanstev in povezav. Pridobite njihovo zaupanje ter ne prehitevajte stvari.

Obdarovanje

Ne sprejmite darila ali komplimenta prehitro. Vsaj nekjekrat odklonite in običajno se darila ne odpira vpričo darovalca. Darilo pomeni pripravljenost za sodelovanje in je veliko bolj pomembno kot iskrena zahvala. Ne darujte predragih daril, če vamobarovanec ne bo mogel povrniti z enako radodarnostjo, sicer pa je primerno darilo iz svoje države.

Obedovanje

Ob pitju vedno natočite najprej drugim, šele nato sebi ali pustite, da drugi točijo vam. Palč ne zapišite navpično v riž in z njimi ne udarjajte po kozarcu ali skodelici. Poskusite vse jedi in na koncu ne pojete vsega do konca.

Vse traja dlje in stane več, kot sprva mislite in bodite pripravljeni na kulturni šok ter se že doma seznanite z razlikami s katerimi se boste soočali na Kitajskem.

Chinese habits

Greeting, meeting in business meeting

Hand shaking is usual. If you meet for the first time you introduce yourself at the same time, but they do not kiss or hug. Address the Chinese people with their surnames and if necessary add the title (e.g. president). The private space is smaller, but avoid physical contact, be careful with choosing the topic of the conversation and do not act to freely. When giving or receiving visiting cards use both hands and hold it so that the receiver can read it. Do not put the card you received in your pocket immediately, but take a look at it, turn it around, if there is anything on the other side and then put it into the visiting card case. The Chinese do not like to start business with strangers, that is why it is good to establish the first contact with a mediator, who knows both parties. They are famous for their legendary negotiation skills (patient and radical, they know positions, capabilities and intentions) and are always a step ahead. They pay regard to hierarchy in business and the principle of seniority, the network of relations, acquaintance and connections. Gain their trust and do not rush things.

Gifts in China

Do not take gifts or compliments too soon. You should refuse at least a couple of times and do never open the gift in front of the donor. A gift is a sign of ones willingness for cooperation and is much more important than sincere thanks. Do not give very expensive gifts, if the one receiving it will not be able to return one as generous, usually a gift from your country is appropriate.

Dining

Always order drinks for the others first, than for yourself, and let others fill your glass. Do not stick the chopsticks into the rice vertically and do not hit with them on glass or a cup. Try all the dishes and do not eat all up.

Everything takes longer and costs more, than you think at first and be ready for a cultural shock and get acquainted with the differences you will face in China before you go there.

Olimpijski krogi

"Pet krogov - moder, rumen, črn, zelen in rdeč - predstavlja pet kontinentov sveta, ki so prepleteni z olimpizmom in pripravljenostjo tekmovali med seboj. Šesta barva - bela v ozadju - je barva vseh držav in tako pet krogov združuje vse nacije ter predstavlja pravi mednarodni emblem."

Povzeto po Coubertin (izbrani rokopisi II, stran 460, 1913)

Zastavo MOK s petimi krogi je Coubertin predstavil na 20. obletnici ustanovitve MOK 23.6.1914 v Parizu in zanj barve krogov ne predstavljajo barv kontinen-tov, temveč barve državnih zastav.

The Olympic Rings

"These five rings – blue, yellow, black, green and red – represent the five parts of the world now encompassed by Olympism and ready to compete against each other. Moreover, the six colours (including the white background) thus combined represent those of all nations, without exception. The blue and yellow of Sweden, the blue and white of Greece, the French, English, American, German, Belgian, Italian and Hungarian tricolours, the yellow and red of Spain are side by side with the new Brazilian and Australian flags, the old Japan and the new China. It is a true international emblem."

Coubertin (Selected Writings II, p. 460, 1913)

He designed and commissioned the Olympic flag with five rings to mark the 20th anniversary of the IOC's founding, on 23rd June 1914 in Paris. For Coubertin the colours of the rings do not represent the colours of the continents, but the colours which appeared in all the different national flags at the time.

Logotip POI Peking 2008

Vsek emblem olimpijskih iger nosi svojo zgodbo. Za igre v Pekingu pomeni njihovo gostoljubnost in upanje, sestavlja pa ga kitajski pečat v obliki plesajočega Pekinga.

The Beijing 2008 Olympic Games emblem

Every emblem of the Olympics tells a story. The Beijing 2008 Olympic Games emblem "Chinese Seal, Dancing Beijing" is filled with Beijing's hospitality and hopes, and carries the city's commitment to the world.

Slogan

Slogan "En svet ene sanje" (ang. "One World One Dream") izraža skupne želje vseh ljudi širom sveta in je prepletен z olimpijskimi ideali za doseganje svetlejše prihodnosti vsega človeštva. Ne glede na raso, jezik ali religijo skupaj delimo radost in veselje Olimpijskih iger.

The Slogan

The slogan "One World One Dream" expresses the common wishes of people all over the world, inspired by the Olympic ideals, to strive for a bright future of Mankind. In spite of the differences in colours, languages and races, we share the charm and joy of the Olympic Games.

Maskote

Idejna zasnova prihaja iz petih olimpijskih krogov, predstavlja pa naravne karakteristike štirih najpopularnejših živali na Kitajskem (riba, panda, tibetska antilopa in lastovka) in olimpijski ogenj.

Medalje

Medalja simbolizira plemstvo in vrline, hkrati pa združuje tradicionalne kitajske vrednote etike in ponosa ter nosi naprej močno kitajsko posebnost.

Zgornja slika sprednja stran,
spodnja slika zadnja stran medalje

Olimpijski ogenj

Olimpijski ogenj, kot ga danes poznajo praktično po vsem svetu, je prvič vzplamtel pred sedemdesetimi leti. Nemški profesor Carl Diem je prišel na zamisel, da bi v antični Olimpiji prižgali ogenj in ga kot štafeto prenesli v Nemčijo, ki je leta 1936 gostila OI v Berlinu. S tem so simbolno povezali antični in moderni olimpizem.

Olimpijski ogenj je med maloštivilnimi simboli, ki jih pozna ves svet. Pomeni mir in svobodo, je več kot samo ritual, saj presega kulturna, politična in religiozna ozadja. In s simboli je tako kot z ognjem; zahteva previdno uporabo, sicer lahko ugasne ali pa opeče.

Tema šafete olimpijskega ognja je "popotovanje harmonije" in pomeni harmonijo športnega razvoja športnika ter miroljubno družbo ter varovanje človeškega dostenjanstva. Gre za ravnotesje med človekom in naravo, med ljudmi in med telesom ter umom.

The Mascots

Founded on the Five Olympic Rings they embody the natural characteristics of four of China's most popular animals (the Fish, the Panda, the Tibetan Antelope, the Swallow) and the Olympic Flame.

The Medals

The medals symbolize nobility and virtue and are embodiment of traditional Chinese values of ethics and honour, but also sending forth strong Chinese flavour.

Upper picture front side,
lower picture back side of the medal

The Olympic Flame

The Olympic Flame, as it is known today all over the world, appeared for the first time seventy years ago at the 1936 Games in Berlin. German professor Carl Diem had the idea to light the Olympic flame in Olympia and bring it to Germany with a Torch Relay. This symbolically connected the ancient and the modern Olympism.

The Olympic Flame is one of the few symbols known by the entire world. It represents peace and freedom, and it is more than just a ritual, because it exceeds the cultural, political and religious backgrounds. And symbols are like fire; they require careful usage, otherwise they can burn.

The theme of the Olympic Flame Relay is "the Journey of Harmony" and it means the harmony of the sport development of an athlete, a peaceful society and the preservation of human dignity. It is about the balance between humans and nature, between people, body and mind.

Republika Slovenija

Republika Slovenija je postala samostojna država po 10-dnevni vojni leta 1991. Leži v srcu Evrope in pokriva 20.273 km², a vendarle kljub svoji geografski majhnosti zajema različne pokrajine: Alpe, Sredozemlje, Panonsko nižino, Dinarsko gorovje in vsaka ima svoje edinstvene značilnosti. Večino države zajema kontinentalno podnebje z mrzlimi zimami in vročimi poletji. Zaradi svoje lege ima Slovenija pomembno tranzitno vlogo, ki jo je držala tudi skozi zgodovino. Predstavlja križišče evropskih poti, kjer so se mešali različni vplivi in interesi. Tako smo se Slovenci že od prvih naselbin v 6. stoletju stalno borili za teritorij proti germanskim, romanskim, madžarskim in ostalim slavonskim narodom.

Slovenija ima 2 milijona prebivalcev, od katerih je 87,9 % Slovencev. Uradni jezik je slovenščina. Glavno mesto je Ljubljana, ki je tudi največje mesto, hkrati pa politični, administrativni, ekonomski, izobraževalni in kulturni center Slovenije. Slovenščina je igrala posebno vlogo skozi slovensko zgodovino in je še vedno smatrana kot temelj nacionalne identitete. Ne glede na različne vplive, še posebej germanskega, je Slovenija ohranila svoje jezikovne posebnosti, od katerih je najbolj značilna »dvojina«, ki se uporablja za dve osebi ali stvari v vseh delih govorja.

Slovenija je že leta 1992 zaprosila za sklenitev Evropskega sporazuma o pridružitvi k Evropski Uniji, katerega je 10. junija 1996 podpisala, veljati pa je začel s 1. februarjem 1999. Decembra 2002 so se končala pristopna pogajanja in Evropski svet je ocenil, da bo Slovenija, kot tudi ostale države pristopnice, pripravljena na članstvo do 1. maja 2004. 23. marca 2003 smo Slovenci vključitev Slovenije v Evropsko Unijo podprli na referendumu in s 1. majem 2004 postali državljanji Evropske Unije. Slovenija je s tem okrepila svojo mednarodno vlogo, utrdila položaj samostojne države, svojo prepoznavnost in gospodarsko moč, povečale so se možnosti študija znotraj EU in ne na zadnje je slovenščina postala eden izmed uradnih jezikov EU. S 1.1.2007 pa je Slovenija prevzela tudi skupno evropsko valuto Euro.

Država in ljudje

Legă:	srednjeevropska država
Površina:	20.273 km ²
Dolžina meja:	1.370 km: z Austrijo (sever) 318 km; z Italijo (zahod) 280 km; z Madžarsko (vzhod) 102 km; s Hrvaško (jug) 670 km

Republic of Slovenia

The Republic of Slovenia, which became independent after a 10-day war in 1991, lies at the heart of Europe. It covers only 20,273 square kilometers, but in spite of its geographically small size, it is a convergence point of a range of different landscapes: Alpine and Mediterranean, the Pannonian plains and Dinaric, each of which has its own characteristics and unique features. Most of the country has a continental climate, with cold winters and warm summers. Because of its geographical position, the territory of the present Slovenia has, throughout history, been an important transit area, a crossroads of trans-European routes, where varied influences and interests have mixed. From the first settlements in the 6th century onwards, Slovenes have constantly struggled for territory, fighting Germanic, Romanic, Hungarian and other Slavonic nations in the process.

Slovenia has a population of 2 million, of whom 87.9 per cent are Slovenes. The official language is Slovene. The capital, Ljubljana, is the largest city, as well as the political, administrative, economic, educational and cultural center of Slovenia. The Slovene language, the South Slavonic language, has played a special role throughout Slovene history and is still considered one of the foundations of the national identity. In spite of various, in particular Germanic, influences, the country has preserved its special linguistic features, the most notable of which is the "dual" form, the grammatical number used for two people or things in all the inflected parts of speech.

Slovenia applied for full membership in the European Union as early as 1992 and signed the Europe Agreement, which came into force in February 1999. Negotiations were concluded in 2002 and the European Council decided that Slovenia, along with other accession countries, would be prepared to acquire membership by May 2004. In March 2003, the citizens of Slovenia voted in favour of full membership, joining the European Union on 1 May 2004. As a Member State, Slovenia intensified its international role, strengthened its position as an independent country, its identity and economic efficiency, and improved the opportunities for education in other Member States; last but not least, the Slovene language became one of the official languages of the European Union and as from 1.1.2007 Slovenia accepted Euro as their own money currency.

The country and its people

Location:	Central Europe
Area:	20,273 km ²
Length of borders:	1,370 km: with Austria (to the N), 318 km; with Italy (to the W), 280 km; with Hungary (to the E), 102 km; with Croatia (to the S), 670 km
Length of coastline:	46.6 km
Climate:	continental in Slovenia, alpine in the north-west, sub-Mediterranean along the coast and the hinterland
Highest peak:	Mt. Triglav - 2,846 meters

Slovenia's membership in international organisations

United Nations (UN), 1992; Conference on Security and Cooperation in Europe (**CSCE**), 1992; Central European Initiative, 1992; World Health Organisation (**WHO**), 1992; International Labour Organisation (**ILO**), 1992; Council of Europe, 1993; International Monetary Fund (**IMF**), 1993; International Bank for Reconstruction and Development (**IBRD**), 1993; World Trade Organisation (**WTO**), 1995; Central European Free Trade Association (**CEFTA**), 1996; European Union and NATO, 2004.

Pomembnejši zgodovinski mejniki

- Po letu 568:** Prevlada slovanskih narodov na ozemlju Slovenije;
- Od 7. do 11. stoletja:** Kneževina Karantanija, prva slovenska država;
- 745:** Karantanija postane del frankovske države. Slovani prevzamejo krščanstvo in počasi izgubljajo samostojnost;
- 9. stoletje:** Širitev frankovskega fevdalnega sistema in prvi začetki oblikovanja slovenskega naroda. V začetku 9. stoletja Franki odstranijo karantanske prince in namesto njih imenujejo lastne obmejne vojvode. Frankovski fevdalni red se širi na slovensko ozemlje;
- Okrog leta 1000:** Brižinski spomeniki, najstarejši zapis v slovenskem jeziku (molitve takratnega obdobja v slovenskem jeziku);
- 10. stoletje:** Začetek razvoja Kranjske, Štajerske, Koroške in goriških regij ter intenzivna nemška kolonizacija;
- 11. – 14. stoletje:** Nastanek prvih srednjeveških mest v Sloveniji;
- 14. – 15. stoletje:** Slovenske pokrajine postanejo del habsburške monarhije;
- 15. stoletje:** Začetek turških vpadov;
- 15. – 17. stoletje:** Kmečki upori: zaradi nezadovoljstva prebivalstva nad neučinkovitim fevdalnim redom, davki in tlako zajamejo celotno slovensko ozemlje kmečki upori, od katerih je bil največji leta 1515;
- 1550:** Sredi 16. stoletja postavi obdobje reformacije (Luterani) temelje slovenskega knjižnega jezika: leta 1550 izda Primož Trubar prvi slovenski knjigi: Katekizem in Abecedenik. Sledijo ji objave približno 500 knjig, med njimi prva slovenska slovница in leta 1584 slovenski prevod biblije Jurija Dalmatina;
- 18. stoletje:** Prosvetjenstvo uvede obvezno šolsko izobrazbo: Cesar Jožef II je v času svojega vladanja uvedel tudi obvezno šolsko izobraževanje, ki je od leta 1774 potekalo v slovenščini in vzpodbudilo kulturno-jezikovno ustvarjalnost slovenskih intelektualcev; to je bil čas prebujanja slovenske narodne zavesti in rojstvo slovenskega naroda v današnjem pomenu besede;
- 1809-1813:** Ilirske province: med Napoleonovimi vojnama je Napoleon zajel JV slovenske regije in v okviru francoske države ustanovil Ilirske province z glavnim mestom Ljubljana;
- 1848:** Zahteva po združitvi vseh Slovencev v enotnem kraljestvu znotraj avstrijskega cesarstva; največji slovenski pesnik France Prešeren preseže slovenski regionalizem in upraviči pravico enotnega pisnega jezika vseh Slovencev. Evropska »pomlad narodov« vzpodbudi program »zedinjene Slovenije« - zahtevo po združitvi vseh Slovencev v eno provinco, imenovano Slovenija;
- 1918:** Ustanovitev države Srbov, Hrvatov in Slovencev: med prvo svetovno vojno poskus ustanovitve združene države Slovencev, Hrvatov in Srbov, 29. oktobra 1918 razglasitev osvoboditve in ustanovitev neodvisne države Slovencev, Srbov, Hrvatov in Slovencev ter 1929 preimenovanje v Kraljevino Jugoslavijo;

Pomembnejši zgodovinski mejniki

- 29. november 1945:** Konec 2. svetovne vojne Slovenci dobijo lastno republiko v okviru Federativne ljudske republike Jugoslavije; med 2. svetovno vojno je Kraljevina Jugoslavija razpadla in slovensko ozemlje so si razdelile Nemčija, Italija in Madžarska. Leta 1980, po smrti Josipa Broza Tita je ekonomska in politična situacija postala zelo napeta, kar je deset let kasneje pripeljalo do razpada Socialistične federativne republike Jugoslavije;
- april 1990:** Prve demokratične volitve;
- 23. december 1990:** Plebiscit za suvereno in samostojno državo (88,5% prijavljenih volivcev glasovalo za);
- 25. junij 1991:** Slovenija razglasí neodvisnost;
- 26. junij 1991:** Novoustanovljeno državo napade jugoslovanska armada. Sledita 10-dnevna vojna in sklenitev premirja;
- december 1991:** Sprejem nove slovenske ustave;
- 15. januar 1992:** Evropska unija uradno prizna Slovenijo;
- 22. maja 1992:** Slovenija postane stalna članica OZN;
- 1. februarja 1999:** Pridružitveni sporazum z EU stopi v veljavo;
- 1. maja 2004:** Slovenija postane članica EU;
- 1. januarja 2007:** Slovenija prevzame skupno evropsko denarno valuto Euro.

Some Important Historical Milestones

- after 568:** Dominance of the Slav people in the territory of Slovenia.
- 7th to 11th century:** The Slavic Duchy of Carantania, the oldest-known, independent Slavonic state in this area.
- 745:** Carantania became a vassal duchy under the rule of the Frankish Empire, which began to spread Christianity. The Slavs converted to Christianity and gradually lost independence.
- 9th century:** The spread of the Frankish feudal system and the beginning of the formation of the Slovene nation. At the beginning of the 9th century, the Franks removed the Carantanian princes and replaced them with their own border dukes. The Frankish feudal system started spreading to the Slovene territory.
- around 1000:** The appearance of the "Freising" manuscripts, the first-known text written in the Slovene and Slavic dialect in Latin script (a few prayers written in the Slovene language of the time).
- 10th century:** The beginning of the development of the Carniola, Styria, Carinthia and Gorizia regions, and intensive German colonization.
- 11th to 14th centuries:** The development of medieval towns in Slovenia.
- 14th to 15th centuries:** Most of the territory of Slovenia including all its hereditary estates is taken over by the Habsburgs.
- 15th century:** Turkish invasions begin.
- 15th to 17th centuries:** Peasant revolts: Dissatisfaction with the ineffective feudal defences against tribute, as well as bonded labour, brought about peasant revolts. A greater revolt in 1515 took place across nearly the entire Slovene territory.
- 1550:** Protestantism and the first book written in Slovene: In the middle of the 16th century, the Reformation, mainly Lutheranism, spread across Slovene territory, helping to create the foundations of the Slovene literary language. In 1550, Primož Trubar published the first two books in Slovene, Katekizem and Abecednik (Catechism and Abecedary). By that time, around 500 books had been written, among them the first Slovene grammar and, in 1584, Dalmatin's translation of the entire Bible.
- 18th century:** Enlightenment and compulsory universal education: The reign of Emperor Joseph II, which saw, among other things, the introduction of compulsory education and primary education conducted in Slovene (1774), together with the start of cultural-linguistic activities by Slovene intellectuals; it was a time of Slovene national revival and of the birth of the Slovene nation in the modern sense of the word.
- 1809-1813:** Illyrian Provinces: At the time of the Napoleonic Wars, Napoleon captured south-eastern Slovene regions and created the Illyrian Provinces of the French state, with Ljubljana as the capital.

Some Important Historical Milestones

- 1848:** Unified Slovenia, the first Slovene political programme: The most important Slovene poet, France Prešeren, made his contribution to overcoming language regionalism; he asserted the right to a unified written language for all Slovenes. The first Slovene political programme, called "Unified Slovenia" emerged during the European "Spring of Nations", demanding that all the lands inhabited by Slovenes should be united into one province called Slovenia.
- 1918:** Formation of the State of Serbs, Croats and Slovenes: During the First World War, Slovenes tried to establish a unified common state of Slovenes, Croats and Serbs. On 29 October 1918 they declared national freedom and the formation of an independent state of Slovenes, Croats and Serbs. In 1929, it was renamed the Kingdom of Yugoslavia.
- 1945:** Federal Peoples' Republic of Yugoslavia (officially declared on 29 November 1945): The end of the Second World War and the formation of the Federal People's Republic of Yugoslavia. During the Second World War, the kingdom of Yugoslavia disintegrated, and Slovene territory was divided among Germany, Italy and Hungary. After the death of Josip Broz Tito in 1980, the economic and political situation started to become very strained and this ultimately led, ten years later, to the end of the Socialist Federal Republic of Yugoslavia.
- April 1990:** First democratic elections.
- 23 December 1990:** More than 88% of the electorate voted for a sovereign and independent Slovenia.
- 25 June 1991:** Proclamation of the independent Republic of Slovenia.
- 26 June 1991:** The newly formed state was attacked by the Yugoslav Army. After a ten-day war, a truce was called.
- December 1991:** A new constitution was adopted.
- 15 January 1992:** The European Union officially recognised independent Slovenia.
- 22 May 1992:** The UN accepted Slovenia as a member.
- 1 February 1999:** An association agreement with the EU came into effect, and Slovenia applied for full membership.
- 1 May 2004:** Slovenia became a full member of the European Union.
- 1 January 2007:** Slovenia accepted Euro as their own monetary unit.

Slovenski simboli, barve in prazniki

Slovenske nacionalne barve so bela, modra in rdeča. Pojavljojo se na zastavi skupaj s grbom, ki simbolizira:

- lik Triglava v beli barvi (najvišja gora v Sloveniji),
- dve valoviti modri črti ponazarjata morje in reke,
- tri zlate šesterokrake zvezde so simbol Celjskih grofov, zadnje velike vladarske rodotvorne na slovenskem ozemlju.

Slovenska državna himna

Slovenska državna himna "Zdravljica" je pesem najbolj znane slovenskega pesnika Franceta Prešernega (1800–1849). Melodijo zanjo je napisal skladatelj Stanko Premrl (1880–1965).

Zdravljica

Žive naj vsi narodi
ki hrepene dočakat' dan,
da koder sonce hodi,
preprič iz sveta bo pregnan,
da rojak
prost bo vsak,
ne vrag, le sosed bo mejak!

Prazniki v Sloveniji

1. in 2. januar	novo leto
8. februar	Prešernov dan, slovenski kulturni praznik velikonočna nedelja in ponedeljek
27. april	dan upora proti okupatorju
1. in 2. maj	praznik dela
25. junij	dan državnosti
15. avgust	Marijino vnebovzetje
17. avgust	združitev prekmurskih Slovencev z matičnim narodom
15. september	vrnitev Primorske k matični domovini
31. oktober	dan reformacije
1. november	dan spomina na mrtve
23. november	dan Rudolfa Maistra
25. december	božič
26. december	dan samostojnosti

Slovene symbols, colours and holidays

Slovenia's national colours are white, blue and red. They appear on the flag, which dates from 1848, along with the coat-of-arms which symbolises three state insignias:

- Outline of white, triple-headed mountain represents Mt. Triglav (the highest mountain in Slovenia) and is the symbol of Slovenehood
- Two wavy blue lines represent the Adriatic Sea and the rivers
- Three gold six-pointed stars are symbols of the Celje counts, the last great dynasty of the Slovene territory

Slovenian flag

Slovenian coat-of-arms

The Slovenian national anthem

The Slovenian national anthem "Zdravljica" or "The Toast" is a lengthy poem by the most famous Slovenian poet, France Prešeren (1800–1849). It was set to music by Stanko Premrl (1880–1965).

Zdravljica – The Toast

God's blessing on all nations,
Who long and work for that bright day,
When o'er earth's habitations
No war, no strife shall hold its sway:

Who long to see,
That all men free,
No more shall foes but neighbours be.

Holidays in Slovenia

January 1 and 2	New Year's
February 8	Preseren Day, Slovene cultural Holiday

TONI	IZGOVORJAVA	
prvi ali dolgi akcent: á drugi ali rastoči akcent: á tretji nihajoči akcent: á četrти ali kratki padajoči akcent: à	c: c (ts: kot angl. sets) s: s z: dz (kot angl. beds) ch: č sh: š zh: dž r: kot češki ř, (kot bi izgovorili r in ž hkrati) q: mehki č (kot hrvaški č) x: mehki š (kot poljski š) j: mehki dž (kot hrvaški đ)	b: kot slovenski b (ali tudi p) brez pridiha p: kot p s pridihom (ph) d: kot d (ali tudi t) brez pridiha t: kot t s pridihom (th) g: kot slovenski g (ali tudi k) brez pridiha k: kot k s pridihom (kh) w: dvoustnični v (kot domov) y: j e: se izgovarja enako kot slovenski polglasnik ə (e v besedi pes)

- ✓ Samoglasnik »a« se ponavadi izgovarja enako kot slovenski a in končnicah: -a, -ao, -ai, -ang, -iangu, -uai. Včasih je izgovorjava črke a in bližja slovenskemu širokemu e (é) - zlasti v končnicah, ki imajo na koncu n (ne pa ng): -an, -ian, -uan (beri: -én, -ién, -uén).
- ✓ Samoglasnik »e« se izgovarja enako kot slovenski polglasnik ə (e v besedi pes): -e, -ei, -en, -eng, -ie, -ue.
- ✓ Samoglasnik »i« se izgovarja na več načinov. Najpogosteje se izgovarja enako kot slovenski i ali j: -i, -ie, -iu, -in, -ian, -ang, -ai, -uai. Za trdimi šumniki pa se izgovarja kot polglasniški i (glas, ki ga dobimo, če oblikujemo z ustimi in rečemo ə) - taka izgovorjava je tipična za zlage chi, shi, zhi, ri.
- ✓ Samoglasnik »o« se izgovarja podobno kot v slovenščini, z manjšimi variantami, ki so delno odvisne tudi od narečja (včasih tudi bolj kot ó ali u). Nastopa v končnicah -o, -ou, -ong -ao, -uo.
- ✓ Samoglasnika »u« in »ü« se izgovarja kot v slovenščini oziroma nemščini. Izgovorjava u nastopa praviloma v končnicah: -u, -ua, -uai, -uan, uang, -iu. Izgovorjava ü nastopa praviloma v končnici -ü ter (za soglasnikom j, q, x, y) v končnicah -ue, -un, -uan.

Slovenska hiša med POI v Pekingu

Olimpijske igre so športni dogodek, ki s svojo neizmerno razširjenostjo in dosegom omogočajo vsem državam udeleženkam poleg udejstvovanja na tem velikem športnem dogodku tudi dobro promocijo države. V Olimpijskem komiteju Slovenije se tega zavedamo, zato pripravljajo projekt Slovenska hiša, Peking 2008, katerega namen je predvsem združeno predstaviti državo Slovenijo.

Olimpijske igre so prav gotovo eden izmed dogodkov, ki je po odmevnosti in zanimanju posameznikov z različnih področij skoraj zagotovo na prvem mestu in je dogodek, ki bo v avgustu deležen velike pozornosti številnih držav s celega sveta. Ob tej priložnosti Olimpijski komite Slovenije skupaj s Slovensko turistično organizacijo in drugimi domaćimi in tujimi partnerji pripravlja projekt, ki združuje športne, gospodarske in turistične interese in je javnosti predstavljen pod imenom Slovenska hiša, Peking 2008.

Namen projekta je zagotoviti celovito promocijo Slovenije s skupnim in povezanim nastopom na področju gospodarstva, športa, turizma in kulture, ki se ob politični podpori med seboj prepletajo in dopolnjujejo. Gospodarska promocija bo potekala na dveh ravneh - sodelujoča podjetja v projektu kot sponzorji bodo imela možnost udeležbe na poslovnih konferencah, organiziranih individualnih poslovnih srečanjih na podlagi oddanih predstavitev podjetij po zainteresiranih področjih ter možnost predstavitev svojih izdelkov in storitev. Poleg tega pa se bodo v hiši odvijali tudi različni sprejemi državnikov in sprejemi poslovnih partnerjev s Kitajske, ki jih bodo sodelujoči v projektu povabili v Slovensko hišo.

Kot smo že omenili, je namen tega projekta predstaviti Slovenijo tudi kot zanimivo turistično destinacijo, za kar bo poskrbela Slovenska turistična organizacija kot nosilka turistične promocije Slovenije. V Slovenski hiši bo pripravila različne delavnice, novinarsko konferenco in sprejem za največje kitajske organizatorje potovanj.

Hiša pa bo predstavljala tudi medijsko stičišče za širšo slovensko delegacijo v Pekingu, v kateri bodo poleg na gospodarstvo in turizem vezana dogajanja, potekale še redne novinarske konference za slovensko športno delegacijo, sprejemi za predstavnike športnih zvez in sprejemi ob odmevnih rezultatih slovenskih športnikov.

Torej, Slovenska hiša bo v Pekingu osrednje stičišče športnih, gospodarskih in turističnih interesov, informacije o dogajanju in hiši pa so dostopne tudi na spletni strani www.slovenskahisa.si, v živo pa na nas lahko obišete na spodnjem naslovu.

The Slovenian House During The Beijing 2008 Olympic Games

The Olympic Games, the greatest worldwide sports event, provide an excellent opportunity to all participating countries to promote their countries. Consequently, the Olympic Committee of Slovenia, being fully aware of this exceptional opportunity, is busy preparing its project "Slovenian House, Beijing 2008" in order to make it possible for its partners to make a complete presentation of Slovenia at this special event.

Undoubtedly, the Olympic Games rank first among those special events which are followed and enjoyed by individuals and countries from all over the world. On this occasion, the Olympic Committee of Slovenia, in co-operation with the Slovenian Tourist Board and other indispensable national and foreign partners, is preparing a project, joining, hand in hand, sports, economic and tourism interests, presented to the general public as "Slovenian House, Beijing 2008".

The core objective of the project is to ensure harmonious and effective promotion of Slovenia - the task that will be carried out with due political support jointly by representatives of economy, tourism and culture. The promotion of Slovenian economy will be carried out on two levels. Firstly, the companies participating in the project as its sponsors will be able to participate in business conferences as well as in organized individual business meetings based on previously submitted company presentations per interested areas of activities during which they will be able to demonstrate their products and services. Secondly, the Slovenia House will be hosting various receptions given in the honour of state dignitaries and business partners from China, invited to the Slovenian House by the organizers of the project.

As already mentioned, one of the objectives of the project is also to present Slovenia as an interesting destination for the tourists from abroad - the task that will be taken care of by the Slovenian Tourist Board, responsible for the promotion of Slovenian tourism. They will be organizing various workshops, a press conference and a reception for the major Chinese travelling agencies.

Furthermore, the Slovenian House will serve as a Press Centre - a meeting point - for the Slovenian delegation in Beijing at large. There, along with the events related to economy and tourism, also regular press conferences for the Slovenian Olympic Delegation, receptions for representatives of sports federations and receptions organized to celebrate excellent sports results of the Slovenian Olympians, will be taking place.

May we therefore cordially welcome you to the Slovenian House in Peking, the central meeting point of the interests of sport, economy and tourism! For more information about the Slovenian House please see www.slovenskahisa.si or visit us at

NASTOPAMO SKUPAJ

ACTING HAND IN HAND

Nastopamo lahko skupaj z ramo ob ramu. Namen projekta »Slovenska hiša, Peking 2008« je celovita promocija Slovenije ter skupni in povezan nastop na področju športa, gospodarstva, turizma in kulture.

Predstavite se in vzpostavite neposredne stike s številnimi gospodarstveniki ter poiščite poslovne priložnosti v Slovenski hiši na olimpijskih igrah v Pekingu v času med 8. in 24. avgustom 2008.

We can act together, hand in hand. The purpose of the project "Slovenian House, Beijing 2008" is a wholesome promotion of Slovenia by harmonious presentation of its sports, economy, tourism and culture.

May we therefore kindly invite you all to present yourselves at not only the world's biggest sports event but also a major business event and establish direct contacts with numerous representatives of worldwide companies at the "Slovenian House Beijing 2008" from 8 August throughout 24 August 2008.
